1.700 sq.m

In Castelnuovo del Garda, in a central and strategic location, we offer a building plot of approximately 1,700 square meters, with a volume of 3,275 cubic meters, ideal for the construction of a new residential complex. The lot is configured as a completion project, with the basement and first attic already completed, offering a significant opportunity for those wishing to develop a real estate project in an established residential area. The initial project called for the construction of six townhouses. The available volume allows for the evaluation of various design solutions and different housing typologies, depending on market needs and current urban planning regulations. The central location, existing developments, and potential for development make this a particularly attractive proposition for construction companies and investors seeking real estate development opportunities in the area. Please contact us without obligation for more information or to schedule a viewing of this building plot in Castelnuovo del Garda.
