The "Residenza Riva" complex will be built in one of the most beautiful areas of Peschiera del Garda, overlooking the lake.

The apartment, located entirely on the first floor, is designed to ensure functional spaces and a high level of living comfort. The entrance opens into a bright living room with kitchenette, enhanced by a large window that leads directly to the approximately 43 square meter terrace, which can also be accessed from the bedroom. The sleeping area is rationally organized and includes a hallway, a bathroom with window, and a double bedroom with a walk-in closet.

There is the option to complete the property with a single garage for €15,000.00, adding practicality and extra space to the home.

The complex is located in a peaceful setting, nestled in a unique landscape with a splendid view of Lake Garda. The elegantly designed building offers various types of finely finished apartments for those who want to enjoy their leisure time on one of Italy's most renowned lakes. A swimming pool will also be built to enhance the exclusivity of the entire building.

The building envelope is designed to ensure high energy, acoustic, and comfort performance, thanks to high-quality walls, roofing, and

windows. The systems are modern and efficient: the electrical system is ready for home automation, the heating system is highly efficient, and the plumbing, ventilation, and special systems such as burglar alarms, data, and video surveillance complete the package. The result is a technologically advanced, safe, and comfortable building.
